PRINT. KIT. FULFILL. SHIP.

Your partner behind every order, kit, and program.

Your products, materials, and customer experience depend on what happens after an order is placed. From receiving and inventory management to kitting, pick and pack, and shipping, we manage the details that keep your fulfillment operation moving.

Receiving + Inventory + Printing + Kitting + Fulfillment + Shipping

Our integrated fulfillment solutions support ongoing data-driven print programs, e-commerce, and B2B distribution. With printing, kitting, fulfillment, mailing, and shipping capabilities, we can produce, manage, assemble, and deliver every order—helping automate workflows, reduce handoffs, and create a consistent experience.

From one order to thousands, we help get the right products and materials to the right place—accurately, efficiently, and on time.

Let's talk about what you need.

SPECTRA
WE SEE SOLUTIONS

Secure. Accurate. Scalable.

Combining production and fulfillment means fewer handoffs, better control, and a team responsible for getting your project across the finish line.

Whether you're sending one personalized communication, launching thousands of e-commerce orders, assembling complex educational kits, or distributing materials nationwide, we build a solution around your program.

Secure Printing & Mailing

Our secure print, mail, and fulfillment solutions combine controlled processes, advanced production capabilities, and dependable execution to help organizations produce and deliver sensitive communications accurately, securely, and at scale.

From personalized transactional documents to high-volume mail programs, our secure production environment supports communications where confidentiality, accuracy, and timely delivery are essential.

Sensitive & Transactional Communications

Our data-driven print capabilities include breach notification letters, open enrollment communications, explanation of benefits, account statements, invoices and billing notices, human resources communications, benefits and enrollment packets, and member and customer communications.

Security & Compliance

Sensitive information requires disciplined processes and a trusted production partner.

Our SOC 2 Type II certified and HIPAA-compliant operations are designed to support the security, confidentiality, and controlled handling of sensitive information throughout production and fulfillment.

From data receipt through production, mailing, and distribution, documented processes help maintain accuracy and accountability throughout the workflow.

Capabilities include:

- » Variable Data Printing
- » Pressure Seal Mailings
- » Transactional Mail
- » Personalized Communications
- » Automated Inserting
- » Matching & Verification
- » Address Processing
- » Presort & Postal Optimization
- » High-Volume Production & Mailing

Variable & Personalized Kitting

The right components. In the right kit. For the right recipient.

Not every kit needs to be the same. Our variable kitting capabilities combine recipient-specific printed materials, unique identifiers, products, components, and messaging based on order data, eligibility, program requirements, location, or other defined criteria—providing greater personalization, accuracy, security, and traceability throughout the fulfillment process.

From personalized medical collection and return kits requiring unique identifiers, matching and verification, return packaging, and shipment tracking to employee benefits and open enrollment kits, financial and account materials, educational kits, sample return programs, and customer-specific packages, we manage the data, print, production, assembly, fulfillment, and shipping required to create unique kit variations accurately and efficiently.

For financial and benefits programs, individual kits can contain different documents, forms, plan information, account materials, disclosures, instructions, and supporting materials based on the specific recipient—helping ensure the right information is matched, assembled, and delivered to the right person.

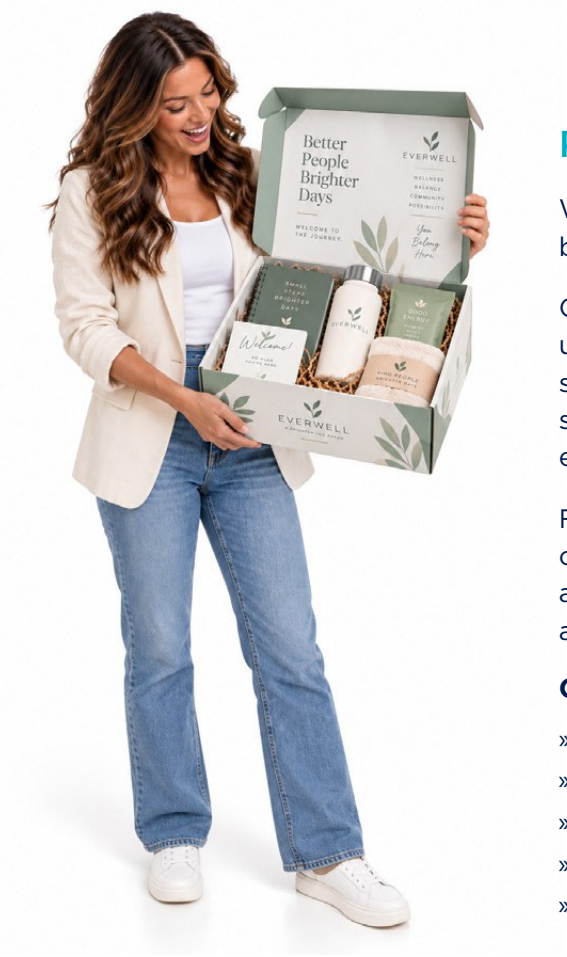

Capabilities include:

- Data-Driven Kitting
- Personalized & Variable Print
- Benefits & Enrollment Kits
- Financial Kits
- Versioned & Variable
- Custom Pack-Out Rules
- Matching & Verification
- Return Packaging
- Multi-Location Programs

Packaging, Branding & Presentation

We don't just assemble your materials—we help create the complete branded unboxing experience.

Our integrated print, design, and packaging capabilities allow us to create and produce custom packaging, inserts, labels, and supporting materials that protect your products, optimize package size, help reduce shipping costs, and extend your brand through every detail of the delivery experience.

From the outside of the box to the materials inside, every component can be designed to create a consistent, professional, and memorable brand experience from the moment your package arrives.

Capabilities include:

- » Custom Packaging
- » Package Design
- » Printed Inserts
- » Labels
- » Instructional Materials
- » Branded Collateral
- » Personalized Components
- » Rework
- » Assembly & Pack-Out

B2B Fulfillment & Distribution

Whether you have employees across hundreds of locations who need on-demand access to branded and marketing materials, or a sales team coordinating a national rollout, we provide the systems and fulfillment support to keep products and materials organized, available, and moving.

Our B2B fulfillment solutions support online ordering portals, recurring replenishment, bulk shipments, multi-location distribution, product launches, sales teams, dealer networks, franchises, offices, and other complex distribution programs. We manage inventory, orders, packing, and distribution so your teams can get what they need, when and where they need it.

Capabilities include:

- » Online Ordering Portals
- » Bulk & Palletized Fulfillment
- » Multi-Location Distribution
- » Inventory Management
- » Recurring Replenishment
- » Custom Packing Requirements
- » Store & Branch Rollouts
- » Sales & Dealer Materials
- » Product Launches
- » Freight Coordination

E-Commerce Fulfillment

From individual e-commerce orders to specialized educational programs, beauty products, retail replenishment, and large-scale distribution, we provide the technology, inventory management, kitting, packaging, and fulfillment capabilities to support a wide range of products and programs.

Whether you use Shopify, WooCommerce, Amazon, BigCommerce, Bright Sites, Wix, Etsy, ShipStation, Walmart, Wayfair, another platform, or a custom-developed cart, we can integrate with your systems to automate the exchange of order, inventory, fulfillment, shipping, and tracking data.

Educational Materials

From individual student shipments and classroom kits to district-wide and national program rollouts, we print, assemble, inventory, and distribute workbooks, curriculum materials, books, learning tools, teacher and student kits, and other educational resources. Personalized and variable components can be incorporated into each shipment based on student, classroom, school, or program requirements.

Beauty, Cosmetics & Personal Care

Support every channel of your brand—from individual e-commerce orders and subscription programs to retail, wholesale, salon, and spa replenishment. We also create product launch kits, sample and promotional kits, influencer and PR packages, branded inserts, labels, and custom packaging. Fulfillment programs can include appropriately classified HazMat and regulated products when applicable handling, packaging, labeling, documentation, and shipping requirements can be met.

Capabilities include:

- » Cart & Platform Integration
- » Automated Order Processing
- » Inventory Management
- » Pick & Pack
- » Educational & Curriculum Fulfillment
- » Retail & Wholesale Orders
- » Salon & Spa Fulfillment
- » Product Launch Kits
- » Subscription Programs
- » Personalized & Multi-Component Kitting
- » Branded Packaging
- » HazMat Fulfillment & Shipping
- » Returns Processing
- » Shipping & Tracking Integration
